SUMMER 2019

ACTIVITIES IN BARCELONA WILL BE A MIXTURE OF WORK-READY TASKS, GUEST LECTURES AND SITE VISITS

ABOUT BARCELONA

The economic, cultural and administrative capital of Catalonia, Barcelona is one of the largest metropolises in Europe.

Barcelona is a unique blend of tradition and modernism, with a distinctive cultural and artistic heritage dating back over 2,000 years. The city is perfectly situated between mountains and the Mediterranean Sea. Its location is just one of the things that attracts millions of visitors each year. Stroll through the city and observe its architectural history; from Roman remains to a network of narrow streets in the Old Town, contrasting with the ultramodern showpieces that continue to redesign its skyline.

RMIT EUROPE

Is focused on extending RMIT's global reach across research, industry and student mobility.

RMIT Europe is the perfect laboratory for nurturing niches and remaking the city. It embraces the creative, positive initiatives and is already collaborating with industries that are making a difference.
